John Kelly provided some background on ANP Planning at Schoodic and Trenton

Andrew: Please cc draft of agreement for parking spaces in Gouldsboro

Sources of Granite for the Sign

Buell's North Sullivan

Freshwater - Orland has cutting equipment

Discussion of Brochure

Discussion of Earmark Funds

- Property Acquisition
- Winter Harbor Village
- Prospect Harbor Parking
- ANP Byway Signage

Gateway facility

The meeting moved to the gateway where I was unable to type notes.

Some findings include:

- Discussed location of the gateway sign – Larry saw merit in locating the sign on the right side of the entrance and will take it under considerations
- Discussed where there was and was not room for sidewalks.
- Location of the Kiosk – might also fit in area near rail bed
- Space of the privy looks adequate just west of the railbed
- Will consider moving benches from proposed location near to the road over to a location closer to the water to escape the noise.
- Additional Landscaping to reduce erosion – plantings, building up low areas and ditches

Larry and Jim then toured the entire byway (also Blackwoods and Acadia).
